

**You asked for it and we heard you!**

**All of the performance of the FH models in a smaller size**

***Introducing the new Seedster SP***

The same strength and versatility as the FH line of Seedsters in a compact size.  
Perfect for breeder plots or small acreages.

For getting those hard to harvest seeds, the Native Seedster has no rival.  
Unparalleled seed capture of those hard to harvest species gives you  
higher profitability and faster return on investment.

We are accepting orders for the 2009 harvest.

**Give us a call today at (406) 294-2995**
